

M. ALEXANDER ZULFIKAR

Kab. Kudus, Jawa Tengah | [+62 812 2930 6715](tel:+6281229306715) | m.alexander.zulfikar@gmail.com

TENTANG SAYA

Software Engineer with around 3 years of experience in web development, backend APIs, and business management systems. Experienced in PHP, JavaScript, SQL, React.js, and currently deepening my Go skills to build more scalable backend services. I have worked on POS systems, analytics dashboards, API integrations, role-based access control, and database query optimization.

I'm interested in backend engineering, system design, and AI orchestration, with a focus on building reliable, maintainable, and business-driven software.

PENGALAMAN KERJA

BBO (PT Bizgital Indonesia)

Software Engineer | Dec 2022 - Sekarang

Developed and maintained multiple web-based business platforms, including POS, ticketing, event management, task management, attendance, and custom event registration systems.

- Contributed to BBO POS, an all-in-one point of sale and business management platform used by 200+ businesses.
- Built core POS features, API services for mobile applications, subscription billing, payment integration, and role-based access control.
- Optimized database queries and improved system response time by up to 60%.
- Developed dashboards for business analytics, project monitoring, code reviews, attendance tracking, and leave management.
- Built event management features such as QR code generation, ID- card printing and verification, organizer dashboards, and attendee management.
- Created custom responsive event landing pages with registration forms and ticket booking flows based on client requirements.
- Integrated task management features with Telegram bot notifications, task update alerts, and

daily task summaries.

- Maintained and improved existing systems through bug fixing, performance optimization, scalability improvements, and feature enhancements based on user feedback.
- Collaborated with internal teams to deliver reliable features across multiple business products.
